Greetings to All

We all have safely overcome the Covid-19 pandemics and have resumed our regular work pattern. As a part of this it gives us immense pleasure to inform you that the IQAC and the NEP 2020 Cell of the college are jointly organizing a one-day workshop on the topic that squarely concerns the challenges in the higher education field today: 'Institutional Preparedness for NEP 2020: Issues and Measures with Special Reference to Revised SSR Questionnaire of NAAC'.

About the Rayat Shikshan Sanstha, Satara

The Rayat Shikshan Sanstha, Satara, Maharashtra State (India), founded by Padmabhushan Dr. Karmaveer Bhaurao Patil in 1919, is one of the leading educational institutions in Asia. The value of its contribution to education in general is enormous, as it has, from the very beginning, tried all its best to lay emphasis on the education of the downtrodden, the poor and ignorant that really forms the major bulk of society. Late Dr. Karmaveer Bhaurao Patil was man of masses who devoted all his mind and heart to the cause of their education. He had thorough understanding of the social ills that beset the times and had fully realized the dire need of the spread of education. He believed that education alone could eradicate illiteracy, untouchability, caste hierarchy, money lending, superstitions, social and economic inequality. All his life he tried to translate this belief into reality. He was the prophet of the poor, the weak, and the dispossessed and left no stone unturned for their upliftment.

About the College

Mahatma Phule Mahavidyalaya, Pimpri Waghere, Pune, established in 1983, is a unit of the Rayat Shikshan Sanstha, Satara. It is a grant-in-aid educational unit affiliated to Savitribai Phule Pune University, Pune. It has been reaccredited at 'A' grade with 3.16 CGPA by NAAC, Bengaluru in October 2017. It is located with metropolitan surroundings with semi-urban countenance. Majority of the students of the college hails from working class background, so the attention has been focused on their betterment through and through.

Internal Quality Assurance Cell (IQAC) of the college works as the catalyst between the administration and the rest of the human resources of the college. It mainly focuses on accelerating its faculty for continuing upgrade in their academic advancement and achievements in the interest of student community of the college. It has succeeded at creating work culture, sense of belongingness and accountability amongst the faculty and support staff that deserve the credit for the same with equal stature.

About the workshop

More India has been emerging as one of the leading nations in the world, more it has been expanding its relevance in the various sectors. Higher education is one such sectors where India is improving access towards creating suitable ambience for introducing new skill-based programmes and courses and also suitable ambience for nurturing intellectual property development. Human resource required for such development mainly comes from higher education field. In this regard, the mega decisive move of the National Education Policy (NEP) 2020 by the union government is going to make the vision of 'Developed India 2047' a reality for sure. Its timely appearance with universal relevance is rightly explained when it is said that it replaces 34-year-old National Policy on Education (NPE), 1986.

The present workshop aims at providing a platform to the experts in the field and all the other concerns for open contemplation, in particular, over facing the 4th Cycle assessment process of the NAAC. Of course, the attempt has been made to focus new aspect included in the revised SSR questionnaire i. e. 'Institutional Preparedness for the National Education Policy 2020'. This is specifically useful for those HEIs who are going to face their 4th Cycle assessment process by NAAC, Bengaluru. Let this platform of academic endeavour, in the first place, attract the Principals and IQAC Coordinators all the way coming from different HEIs. We look forward to make the workshop as much fruitful as possible.

Prof. (Dr.) R. T. Bedre spoke on the NEP 2020 first and then turned towards its relevance and indispensability in the assessment process of the agencies like NAAC. It is the 'Institutional Preparedness of NEP 2020' as it has been coined by the NAAC itself. He surveyed on the educational commissions after independence. His was the tone that ever since the Dr. Radhakrishnan Commission the indigenous fervour has been present in all the Commissions. Also Kothari Commission covered the overall development of pupils. Guest Lecture Report
2021-22

Date: 26 May 2021

Time: 11.00 am

Subject: "Monsoon and its impact on Indian culture and social life"

Keynote speaker: Mr. Sunil Tambe (Author and Journalist)

Program Chairperson: Principal Dr. Pandurang Gaikwad

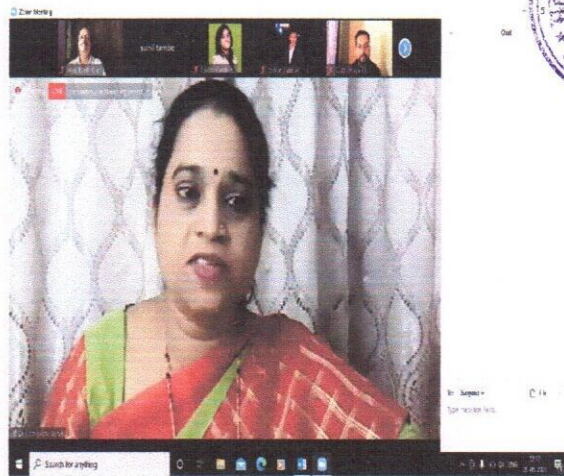

Introduction and proposal: Prof. Dattatray Hingane (Nodal Officer, B.Voc)

Moderator: Prof. Kamayani Survey.

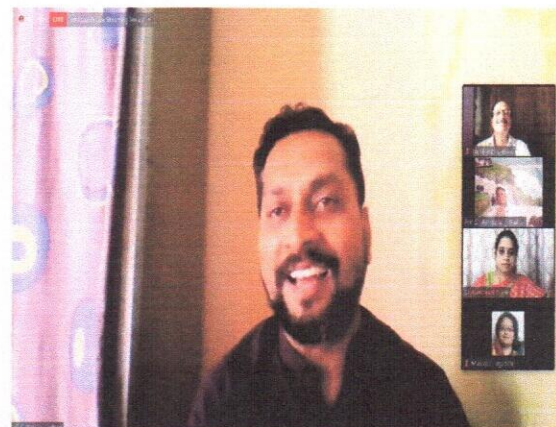

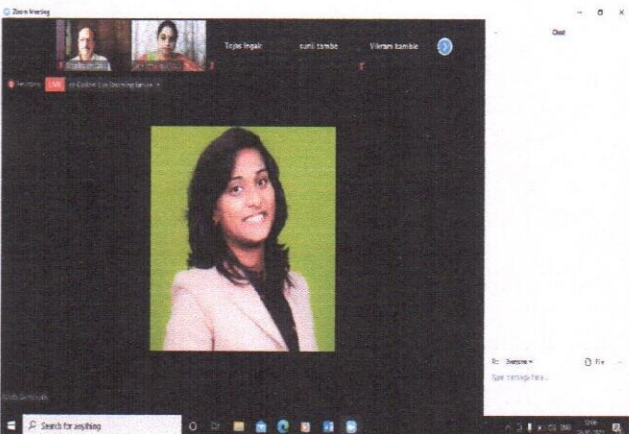

An online lecture was organized by the Department of Mass Communication (B.Voc) at Mahatma Phule Mahavidyalaya, Pimpri on the topic "Monsoon and its impact on Indian culture and social life".

In this context, senior journalist and thinker Sunil Tambe explained the process of monsoon and its impact on the economy, particularly on the trade routes in the Indian Ocean that have emerged based on the winds. They emphasized the importance of the Indian value of religious harmony being reflected in the monsoon. The impact of heating of the Tibetan plateau on activation of Monsoon in the Indian Ocean was elaborated by the speaker in the lecture.

The information shared in the lecture was helpful for both students and professors. Some students also had discussions with Mr. Tambe to clear their doubts on the subject of monsoons and its communication. The lecture provided a useful understanding of the basics of weather journalism for the students and helped them to recognize the importance of meteorology. The event was proposed by Professor Dattatraya Hingne, who is the nodal officer of Mass Communication, and moderated by Professor Kamayani Survey.

Rayat Shikshan Sanstha, Satara (M.S.) established in 1919 by the great visionary educationist Late Padmabhushan Dr. Karmaveer Bhaurao Patil, is one of the eminent and leading educational institutions in Asia. Since its establishment, it aims to provide education from primary level to P.G. level along with technical education to the down-trodden, the poor and the needy aspirants irrespective of caste, class and creed. Its vision is to provide quality education to all, especially to rural, semi-urban and socio-economically deprived students to make them self-reliant and self-confident. The spread of the institution is in the states of Maharashtra and Karnataka, through its 716 branches including 42 Senior colleges imparting higher education.

COLLEGE AT A GLANCE

Mahatma Phule Mahavidyalaya, Pimpri is one of the forty-two senior colleges run by Rayat Shikshan Sanstha, Satara, which is dedicated to the cause of education and upliftment of the masses. Pimpri-Chinchwad is prominent industrial city in Maharashtra, predominantly inhabited by industrial workers and slum-dwellers. These residents could not afford to send their wards for degree education in Pune city which is about 25 kilometres away from Pimpri. Under these circumstances, Mahatma Phule Mahavidyalaya was established in Pimpri in 1983.

Ours is a multi-faculty college that runs 04 U.G. programmes including B.B.A. (Computer Application) and seven P.G. programmes.

Besides these conventional degree programmes, the college also runs 38 different skill based career-oriented Add-on-Courses. In addition to this, Y.C.M.O.U. study centre in our college runs B.A. / B.Com. / B. Lib. and M. Lib. courses. Recently, our college underwent NAAC Re-Accreditation Process for the third cycle and has been placed at 'A' grade level with CGPA : 3.16.

ABOUT THE CONFERENCE

Water is an important vital part which plays an important role in the surrounding environment and in the life of living things. Water covers nearly 75% of the earth's surface. The drinking water is obtained from two sources, a) Surface water sources, b) Ground water sources both sources are polluted by chemical, microbial and other contaminants.

Water scarcity is a Global and National Problem. 2.8 billion people around the world are deprived of water at least a month every year. 1.2 billion people worldwide lack access to clean drinking water.

Water scarcity is being driven by two converging phenomena, growing use of fresh water and depletion of usable fresh water resources.

The conference is organized to address the water issues viz, water management, recycling, purification, conservation of water resources, Rain water harvesting, Public awareness etc.

The aim of the conference is to provide a platform for academicians, researchers and scientists to share views in this regard. The brain stormings during the conference would lead to innovations in this area of water crisis.
