अहवाल

महाविद्यालयात विद्यार्थी विकास मंडळ व राष्ट्रीय छात्र सेना यांच्या संयुक्त विद्यमाने दि.१६-०३-२०२३ रोजी सकाळी ९.३० वाजता “निर्भय कन्या अभियान”कार्यशाळा घेण्यात आली. बदलत्या कालप्रवाहात स्त्रिया सक्षमपणे सर्वच क्षेत्रात वावरत आहेत. प्रत्येक क्षेत्रात त्या सक्षमपणे कार्यरत आहेत. कला, क्रीडा, समाजकारण, राजकारण, अर्थकारण, शिक्षण अशा विविध क्षेत्रात त्या आपल्या कार्याचा ठसा उमटवित आहेत. प्रवाहाच्या बाहेर असणाऱ्या स्त्रियांनीही बदलत्या काळाची आव्हाने ओळखून पारंपरिक मानसिकता बदलून, बंधने झुगारून जीवनात सक्षमपणे उभे राहायला हवे, असे प्रतिपादन प्रा. सचिन पवार यांनी केले.

समाजव्यवहारात स्त्रियांवर, तरुणींवर हल्ले होण्याचे प्रकार घडताना दिसतात. अशा हल्ल्यांचा प्रतिकार कसा करावा हे बुद्धभूषण गायकवाड यांनी प्रात्यक्षिकातून दाखवून दिले. कार्यक्रमाच्या अध्यक्षस्थानी महाविद्यालयाचे प्राचार्य डॉ. कैलास जगदाळे होते. महाविद्यालयीन तरुणींनी उच्च ध्येये ठेवून जिद्द, चिकाटी, परिश्रम आणि परिश्रमातील सातत्याच्या बळावर आपल्या ध्येयाप्रत पोहोचावे, असा मनोदय त्यांनी व्यक्त केला.

कार्यक्रमाचे प्रास्ताविक लेफ्टनंट प्रा. प्रसाद बाठे यांनी केले. कार्यक्रमास उपप्राचार्य प्रोफेसर डॉ. माधव सरोदे, कला शाखा प्रमुख डॉ. मृणालिनी शेखर, विज्ञान शाखा प्रमुख प्रा. शहाजी मोरे, आय.क्यु.ए.सी. समन्वयक डॉ. नीलकंठ डहाळे, प्रा. दत्तात्रय बिडबाग, विद्यार्थिनी बहुसंख्येने उपस्थित होत्या. उपस्थितांचे आभार डॉ. पांडुरंग भोसले यांनी मानले. सूत्रसंचालन प्रा. संग्राम गोसावी यांनी केले.

### Greetings to All

We all have safely overcome the Covid-19 pandemics and have resumed our regular work pattern. As a part of this it gives us immense pleasure to inform you that the IQAC and the NEP 2020 Cell of the college are jointly organizing a one-day workshop on the topic that squarely concerns the challenges in the higher education field today: 'Institutional Preparedness for NEP 2020: Issues and Measures with Special Reference to Revised SSR Questionnaire of NAAC'.

### About the Rayat Shikshan Sanstha, Satara

The Rayat Shikshan Sanstha, Satara, Maharashtra State (India), founded by Padmabhushan Dr. Karmaveer Bhaurao Patil in 1919, is one of the leading educational institutions in Asia. The value of its contribution to education in general is enormous, as it has, from the very beginning, tried all its best to lay emphasis on the education of the downtrodden, the poor and ignorant that really forms the major bulk of society. Late Dr. Karmaveer Bhaurao Patil was man of masses who devoted all his mind and heart to the cause of their education. He had thorough understanding of the social ills that beset the times and had fully realized the dire need of the spread of education. He believed that education alone could eradicate illiteracy, untouchability, caste hierarchy, money lending, superstitions, social and economic inequality. All his life he tried to translate this belief into reality. He was the prophet of the poor, the weak, and the dispossessed and left no stone unturned for their upliftment.

### About the College

Mahatma Phule Mahavidyalaya, Pimpri Waghere, Pune, established in 1983, is a unit of the Rayat Shikshan Sanstha, Satara. It is a grant-in-aid educational unit affiliated to Savitribai Phule Pune University, Pune. It has been reaccredited at 'A' grade with 3.16 CGPA by NAAC, Bengaluru in October 2017. It is located with metropolitan surroundings with semi-urban countenance. Majority of the students of the college hails from working class background, so the attention has been focused on their betterment through and through.

Internal Quality Assurance Cell (IQAC) of the college works as the catalyst between the administration and the rest of the human resources of the college. It mainly focuses on accelerating its faculty for continuing upgrade in their academic advancement and achievements in the interest of student community of the college. It has succeeded at creating work culture, sense of belongingness and accountability amongst the faculty and support staff that deserve the credit for the same with equal stature.

### About the workshop

More India has been emerging as one of the leading nations in the world, more it has been expanding its relevance in the various sectors. Higher education is one such sectors where India is improving access towards creating suitable ambience for introducing new skill-based programmes and courses and also suitable ambience for nurturing intellectual property development. Human resource required for such development mainly comes from higher education field. In this regard, the mega decisive move of the National Education Policy (NEP) 2020 by the union government is going to make the vision of 'Developed India 2047' a reality for sure. Its timely appearance with universal relevance is rightly explained when it is said that it replaces 34-year-old National Policy on Education (NPE), 1986.

The present workshop aims at providing a platform to the experts in the field and all the other concerns for open contemplation, in particular, over facing the 4th Cycle assessment process of the NAAC. Of course, the attempt has been made to focus new aspect included in the revised SSR questionnaire i. e. 'Institutional Preparedness for the National Education Policy 2020'. This is specifically useful for those HEIs who are going to face their 4th Cycle assessment process by NAAC, Bengaluru. Let this platform of academic endeavour, in the first place, attract the Principals and IQAC Coordinators all the way coming from different HEIs. We look forward to make the workshop as much fruitful as possible.

At the outset, Dr. Neelkanth Dahale made introduction on the concept of the workshop. He expressed that the workshop deals with the new topic concerning the dire need of the time in Indian higher education system: creating equitable and just society on the one hand and education system with indigenous fervour on the other. He added the principle of *Ahankara* of Adya Shankaracharya into his introduction.

Prof. (Dr.) R. T. Bedre spoke on the NEP 2020 first and then turned towards its relevance and indispensability in the assessment process of the agencies like NAAC. It is the 'Institutional Preparedness of NEP 2020' as it has been coined by the NAAC itself. He surveyed on the educational commissions after independence. His was the tone that ever since the Dr. Radhakrishnan Commission the indigenous fervour has been present in all the Commissions. Also Kothari Commission covered the overall development of pupils. The objectives of these Commissions were achieved fully could linger behind. Further, he explained, followed by the discussion all the six points in the NAAC questionnaire. ### Greetings to All,

All of us have overcome the Covid-19 pandemics safely and have resumed our regular work pattern. As a part of this, it gives us immense pleasure to inform you that the IQAC and the Research Promotion and NIRF Committee of the college are jointly organizing a one-day workshop on the topic that squarely concerns the challenges in the higher education and research field today: 'Research Methodology'.

### About the Rayat Shikshan Sanstha, Satara

The Rayat Shikshan Sanstha, Satara, Maharashtra State (India), founded by Padmabhushan Dr. Karmaveer Bhaurao Patil in 1919, is one of the leading educational institutions in Asia. The value of its contribution to education in general is enormous, as it has, from the very beginning, tried all its best to lay emphasis on the education of the downtrodden, the poor and ignorant that really forms the major bulk of society. Late Dr. Karmaveer Bhaurao Patil was a man of masses who devoted all his mind and heart to the cause of their education. He had thorough understanding of the social ills that beset the times and had fully realized the dire need of the spread of education. He believed that education alone could eradicate illiteracy, untouchability, caste hierarchy, money lending, superstitions, social and economic inequality. All his life, he tried to translate this belief into reality. He was the prophet of the poor, the weak, and the dispossessed and left no stone unturned for their upliftment.

### About the workshop

India has been emerging as one of the leading nations in the world, and has been expanding its relevance in the various sectors. Higher education and Research development is one such sectors where India is improving access towards creating suitable ambience for introducing many research-based programmes. Research is a creative process " research includes far more than mere logic. It includes insight, genius, groping, pondering - 'sense..The logic we can teach; the art we cannot". Research requires imagination, initiative, intuition, and curiosity. The most important element in the acquisition and development of scientific knowledge is the method used to investigate questions. Research may be defined as the process of creating hypothetical answers to questions and then designing methodologies to defend or prove those statements. The appropriate choice of a method can yield results that justify the research effort, while using inappropriate methods can result in incorrect conclusions and irrelevant or inaccurate theory, which may be a great waste of time and may cut worst cause significant misunderstanding. Some of the important questions in the area of research is concern the fundamental nature and characteristics of research. It is necessary to examine some of the principal concepts and procedures used in conducting research consistent with the scientific method. Research designs are plans and procedures for research that span the decisions from broad assumptions to detailed methods of data collection and analysis. This plan involves several decisions, and they need not be taken in the order in which they make sense to research and order of the presentation. The overall decision involves which design should be used to study

a topic. Informing this decision should be worldwide assumptions the researchers bring to the study; the procedure of inquiry; and specific methods of data collection, analysis, and interpretation. The selection of a research design is also based on the research problem or issue being addressed, the researcher's personal experiences, and the audience of the study.

### The workshop will address the following issues

1. Knowledge is conjectural absolute truth can never be found. Thus, evidence established in research is always imperfect and fallible.
2. Research is the process of making claims and then refining or abandoning some of them for other claims more strongly warranted. Most quantitative research, for example, starts with the list of theory.
3. Research seeks to develop relevant, true statements, ones that can serve to explain the situation of concern or that desirable the casual relationship of interest.
4. Being objectives is an essential aspect of competent inquiry; researchers must examine methods and conclusions for bias.

### Program Objectives

1. To provide knowledge on Research Methodologies and design aspects.
2. To get exposure for writing scientific manuscripts and review process.
3. To provide a comprehensive review of sources and characteristics of constraints typically found in construction of research design.
4. To review current trends and practices and researches in regards to constraint modeling.
5. To discuss current issues, recent developments and their impact, and future challenges.
