**Extension Activity for Relaxation Techniques
Report 2021-22**

Date: 12/03/2022

The Department of Psychology organized a program on Relaxation Techniques at a Rayat Shikshan Sanstha's Kanya Vidyalaya, Pimpri. The program was attended by students from the 8th and 9th grades, which are currently facing a lot of stress in their academic and personal lives such as competition in educational life, school coursework, office work, exam anxiety, pressure to perform well in exams, expectations from parents, and personal issues in their personal life. These issues often lead to stress and anxiety in students. Hence, the program was organized to help them cope with it. Due to the disappointment caused by poor academic performance, stress, lack of concentration, and other issues related to school, the physical and mental balance of students can be disrupted. In such situations, guidance from experts can help girls in school life to succeed in their exams and personal lives, as well as develop resilience in times of crisis. Professor Rupali Gawade from the Department of Psychology taught various relaxation techniques such as mindfulness, yoga, meditation, and prayer during a practical session.

In this program, 81 girls actively participated and benefited from this activity. 10 students pursuing their T.Y. B.A. (Psychology) actively contributed to this session. The school's principal, Mrs. Sharada Shete, and teachers, as well as support staff, collaborated to make this program a success. The college's principal, Dr. Pandurang Gaikwad, provided guidance for the program's success.
